

AULIA MEI AZIZI

Senior SDET

Yogyakarta, Indonesia | 082130315528 | auliameiazizi@gmail.com

SUMMARY

SDET with 6+ years in QA (3.5 years as SDET) specializing in API and web UI automation with Java and Playwright. Scaled squad-level automation coverage to 60%+, including end-to-end coverage for complex new features. Defined deployment quality gates and CI/CD testability standards in partnership with developers.

EXPERIENCE

Software Development Engineer in Test (SDET) | PT Global Digital Niaga (Blibli)

Yogyakarta / Jakarta, Indonesia | January 2022 – October 2025

- Designed and implemented API and web UI automation frameworks for sprint features and release cycles using Java and Playwright, achieving over 60% automation coverage at squad level.
- Built end-to-end automated test suites covering multiple integrated services for trade-in and B2G e-commerce platforms, coordinating with developers to identify testable code paths and trigger conditions.
- Integrated automated test suites into CI/CD pipelines via Jenkins and source control workflows, enforcing deployment quality gates so new versions only ship when test thresholds are met.
- Created and executed comprehensive test plans and test cases for both manual and automated testing across product releases.

IT Quality Assurance | PT Kognitif Skema Indonesia

Jakarta, Indonesia | November 2018 – January 2022

- Manually tested web and mobile releases against functional documentation before deployment, coordinating with development and client teams on release readiness.
- Analyzed product workflows and related documentation to develop test strategies aligned with functional and technical specifications.
- Verified and replicated user-reported bugs in Jira across test environments, and tested newly developed applications and patches before deployment.
- Acted as a QA bridge between vendor development teams and client/user teams by configuring systems, escalating and retesting bugs, and validating new builds.

PROJECTS

Playwright Java Automation – The Jakarta Post

https://github.com/almezi/pw_java_thejakartapostcom

Automated web UI testing suite using Java, Playwright, Page Object Model architecture, and cross-browser user journey validations.

Playwright Java API Automation – JSONPlaceholder

https://github.com/almezi/pw_java_jsonplaceholder.typicode.com

Automated REST API testing suite using Playwright APIRequestContext to validate response codes, payload schemas, and CRUD operations.

EDUCATION

Bachelor of Information Systems (GPA 3.6)

Universitas Bina Nusantara

2020 – 2022

Associate's Degree in Management Information Systems (GPA 3.4)

Universitas Telkom

2015 – 2018

SKILLS

Languages: Java, JavaScript

Automation: Selenium, Playwright, RestAssured, API automation, UI automation, internal automation frameworks

CI/CD & tools: Jenkins, GitLab CI, Jira, source control workflows

Data: SQL, NoSQL, Postman

Process: Test planning, manual testing, deployment quality gates, stakeholder management
